

**We are looking for a**

***Financial Controller***

***with a passion for Process Improvements (0.8 FTE/32hours per week)***

**Who are we?**

Medis was created in 1989 as a spin-off of the Leiden University Medical Centre (LUMC Netherlands). Our founder and current CSO, Hans Reiber, built the company focusing on X-ray and image analysis of the heart and with the mission to make these tools available to all medical researchers and specialists.

For over 30 years, Medis has been providing high quality quantitative analysis solutions for cardiovascular imaging to the medical community. Our heritage and core values are based on this strong purpose of contributing to a healthier society by providing the right tools to cardiologists, radiologists, researchers, and industry partners.

Based on the principle “to measure is to know” we support medical professionals with determining the best diagnosis and the subsequent treatment strategies for all patients. Our software creation and realization process is as simple, as it is unique: starting from a medical need that develops from concept to product. In Medis, this continuous innovation leads to new software solutions based on new ideas for the ever-changing cardiovascular imaging environment. And at the same time, we remain relevant in a social and sustainable way. At Medis, quality is key.

**Medis. Imaging solutions in a Heartbeat.**

**What will your role be?**

You will be working together with the Business Controller and the Finance Assistant to develop the Finance Department of Medis Medical Imaging to a higher level of process, controlling, planning and automation standards. You will be assisting the Business controller to carry out the periodical financial reporting, whereby we encourage you to challenge the status quo. The ultimate goal is to provide all stakeholders with fresh and actionable insights for supporting business decisions.

You will be able to supervise correctness of the accounting data, and proactively act upon the process gaps responsible for unsatisfactory financial information, interpreting and understanding the stakeholders perspective and needs. Because of the deep involvement in the daily financial operations, you will feel comfortable in initiating incremental improvements of the ERP System (Exact) and further integration within our financial and other corporate IT systems.

This role is envisioned to have two main components, whereby a split lies between the Financial controlling tasks 75% and continuous process improvement tasks, to be realized within an agile framework, 25%. Examples can be:

- Optimization of the current functionalities of the ERP system (Exact - Synergy), including migration of foreign entities currently administrated outside Exact;
- Driving projects aimed to integrate Financial Systems with other company IT systems (Sales Force, Jira, Expense Management, etc)
- Delivering better reporting, also by developing live dashboarding tools (Power BI)
- Building reliable planning tools, periodically assessing their accuracy
- Policy formulation and process documentation
- Contribute to set up a performance management structure

### **The profile we are looking for:**

- Bachelor or Master's degree in Business Administration or equivalent
- At least 5-8 years of international Finance experience at different levels and in different roles
- Proven accounting knowledge
- Thorough understanding of (best in class) Financial processes
- Experience with Finance/IT systems' continuous improvement
- ERP Software Exact-Synergy experience is a strong plus
- Excellent Microsoft office package knowledge
- Fluent English at professional level, Dutch is a plus
- You enjoy working in a small but effective Finance team

### **Personal Skills and competences:**

- Ability to break down a complex problem into simpler and manageable tasks
- Demonstrates persistence in achieving objectives in the face of challenges
- Maintains flexibility to meet changing business needs
- Quick learner and problem solver
- Takes initiative and executes independently under minimal direction
- Excellent interpersonal and presentation skills in English, verbal and written
- Team player with attitude to transparency and loyalty
- Able to prioritize initiatives that have true value for the business
- Likes working in a small company with huge potential for growth, meanwhile in an industry that has a direct impact on people's health.

**What Medis offers you:**

- An attractive compensation plan with:
- A Base Salary (FT) between 40k-50K a year
- Performance bonus plan
- Partially working from home
- International, young and diverse colleagues
- Personal growth and development opportunities
- Contributing to innovative products that have an impact on people's life
